

Product Information and Specifications

Digital 80g/m²

Designed for color digital - laser & inkjet printing

PaperOne™ Digital is a PEFC-certified, premium quality paper that ensures superb printability on industry-leading digital printers and copiers with its extra high smoothness and unparalleled whiteness. Imbued with ProDigi™ Nanotechnology, it is a cut above the rest on high speed digital inkjet machines or your regular home and office pigmented inkjet printers compared to other similar grade papers.

Print & Usage Area

- Designed for latest high speed digital laser and inkjet printers.
- All home & office printers & copiers.

Examples of usage areas are presentations, newsletters, proposals, books, magazines, copies, graphics, memos and reports etc.

Features and Benefits

Environmentally Friendly	-100% renewable fiber from PEFC-certified plantations (For more info, please visit www.pefc.org)
Superb smoothness	-Silky paper feel and exceptional print quality
Ultra-high whiteness	- Superb print contrast and clarity, especially on color
High opacity	- No show-through
Precision cut edges	- Trouble-free performance, jam-free
User friendly box	- Built-in handles for easy carrying, perforated tear strip for ease of access to reams, and unprinted lined area for labeling.
ProDigi™ Nanotechnology	- Enhanced surface technology for superb digital color inkjet/laser printing

Properties	Unit	Method	Target
Basis Weight	g/m ²	ISO 536	80
Thickness	μm	ISO 534	110
Roughness	ml/min	ISO 8791-2	100
ISO Brightness	%	ISO 2470	100
ISO Opacity	%	ISO 2471	96
CIE Whiteness	#	ISO 11475	170
